

Impressions of 31st ChinnaShodhayatra

Tue, 18 Jun

The very first thing I came to this Yatra is to find better me and to gain the view about the rural areas as well. As the journey started I was in dilemma whether I can fulfill or not but then as days passed I got everything more than I expected. The first thing which made me happy was knowing more about co yatri in spite of explaining myself. I could recommend about this to many of my friends and yeah I am on my duty since first Yatra hoping to addition more than anybody couldn't expect. This is my 3rd Yatra and I'll increase my count of yatras..

Hoping to spend more time(interact) in villages than walking and talking. I think we have not reached the target and couldn't find out any innovators .

And my special thanks to Brig Ganeshamsir .
