

Impressions of 31st ChinnaShodhayatra

Tue, 18
Jun, 13:35

It was new experience and had a great time with all. Things i noticed in this journey like agricultural problems, no sufficient water, barren lands etc... the expression when we tried to interact with them showed that they are fed up waiting for govt or someone to help them. It was very bad that there were no trees and greenary in any of the villages. I hope the journey of this pallesrujanawould success more in finding more rural innovators. finally it was so glad that I am also part of this organization. thank you.
